Projects

Portfolio Website

Developed a portfolio website using the Angular framework, leveraging Router Outlet for dynamic and nested routing to create a seamless single-page application experience. The project is deployed on Netlify, ensuring fast, secure, and scalable hosting with continuous deployment support.

Application of AI Chatbot using Gradio Interface for Human Mental Health Disorders

Developed an intelligent chatbot system using Python and the Gradio interface to provide mental health support for users. The project provides conversations, mental health resources, stress-reduction techniques, and guidance for coping with common disorders such as anxiety and depression.

Certification

Python Full Stack Web Development — NareshIT, Hyderabad Mar 2025

Strengths

- Adaptable
- Team Coordination
- Positive Attitude
